EXPERIENCE

AWS Student Builder Group JRU Ch. *2026 – Present*
Frontend Developer — Mandaluyong City

- *Co-developed the group's official website using Vanilla HTML/CSS/JavaScript/Python/FastAPI/Supabase/Groq API/GMAIL SMTP/, improving page load speed and mobile responsiveness for website visitors.*
- *Built key pages/features (e.g., events archive, member registration, home, about, etc) alongside my clubmates, streamlining how members accessed event and registration info.*
- *Collaborated with the UI/UX and creative teams to translate mockups into functional pages, reducing revision cycles by 90%.*

Vice Chief of Technology *2026 – Present*
AWS Student Builder Group JRU Ch. — Mandaluyong City

- *Streamlined the group's tech workflow by introducing version control via GitHub and a shared task tracker, reducing project turnaround time by 80%.*
- *Planned and executed technical projects, including overseeing the development of the group's website from concept to launch.*
- *Recognized by Rizalian Student Organization for successful website launch, event tech support, and workshop delivery.*
